

SMILE NOW DENTAL

General Dentist | Holistic Dentist | Laser Dentist

1930 S. BASCOM AVE #200 CAMPBELL, CA 95008

Our highest priority is safety of your health. We have trained and educated our team to enhance office protocol to ensure highest standard of your health and safety

To ensure your health and safety we have made additional changes to our office and some of the highlights are,

- Dental chair, lights and all visible surfaces are cleaned and disinfected thoroughly with medical grade disinfectants that kill 99.9% of bacteria and viruses.
- As always, disposable protective coverings on equipment are disposed off and replaced after each patient visit.
- All team members are using PPE (Personal Protective Equipment) which include, N95 mask, Protective shield, gowns, head cover, Shoe covers, gloves.
- All our team members are checked daily twice for temperature to ensure their safety as well as our patient safety.
- Patient entering the office initially checked for temperature with infrared thermometer (Touch less) by one of our staff members. If the temperature is more than 100.4 F, we will reschedule the appointment
- We have staggered the appointment between patients to ensure cleaning the room, disinfection and social distance.
- We implemented one patient policy in our lobby. At any point of time, if you see a patient waiting in our lobby, we request you to wait outside and will call you to get in.
- All patients will be provided with the antimicrobial mouthrinse before we seat them on the dental chair.

1930 S. BASCOM AVE #200 CAMPBELL, CA 95008

- We have installed HVE (High Volume Evacuators) which is a suction device that draws a large volume of air over a period of time and is fitted on to an evacuation system. It removes a volume of air up to 100 cubic feet per minute
 - For Mercury Vapor, Ozone, BPA dust, abrasion powder, laser smoke, VOCs, airborne viruses...
 - Disposable intake liners for moisture control
 - Internal stiffener arm for extended non-contact hose support
 - 4stage filtration for moisture, particulate, odor and vapor control
 - Castered for multiple operatory mobility
 - Prefilter for particulate capture down to 10 micron
 - HEPA filter for particulate capture down to 0.3 micron
 - Granulated activated carbon filter for odors and vapors

- We are using ultra violet light system to disinfect surface multiple times in a day

We are here to serve our patients; our community and our highest priority is to keep our community safe and healthy. Our office is one of the safest places to be during this time for having the proper dental treatment.
